PROFILE

I'm a driven IT student pursuing graduation from BBSUL. With a strong foundation in front-end development, I specialize in HTML, CSS, and JavaScript. Proficient in crafting visually appealing and user-friendly interfaces, I'm eager to leverage my skills to drive innovation in the tech industry.

PROJECTS

E-commerce website

- Developed a fully functional e-commerce website for a local retail business, enhancing their online presence.
- Technologies Used: HTML, CSS, JavaScript, Bootstrap.
- Key Contributions:
 - Designed a responsive layout to ensure compatibility across devices.
 - Implemented user-friendly features such as product filtering, a shopping cart, and a secure checkout process.

Cafe website

- Designed and developed a user-friendly website for a local café to enhance its online presence.
- Technologies Used: HTML, CSS, JavaScript, Bootstrap.
- Key Contributions:
 - Created a visually appealing homepage that highlights the café's menu and atmosphere.
 - Implemented an online reservation system for customers to easily book tables.
 - Integrated a contact form to facilitate customer inquiries and feedback.

Amazon clone

Completed a comprehensive course covering key front-end technologies.

Skills Acquired:

Proficient in HTML, CSS, and JavaScript for building responsive web applications.

Experience with Bootstrap for responsive design.

Understanding of version control using Git.

Knowledge of web design principles and user experience (UX) best practices.

CERTIFICATE

Front-End Development Course Bano Qabil

- Developed a static replica of the Amazon homepage using only HTML and CSS to enhance web design skills.
- Technologies Used: HTML, CSS
- Designed a responsive layout to ensure compatibility across devices.
- Created product sections with images and descriptions, simulating a real shopping experience.
